

## Are You Out There, God – Description

Abandoned and lost in a world of sex, abuse, and terror, desperate kids turn to their last hope, pleading...

### **Are You Out There, God?**

**They are like shadows in our cities**, small outlines of skin and bones that attach themselves to abandoned buildings, park benches, narrow alleyways.

And when darkness falls, these shadows disappear into places many of us will never, ever see in this lifetime.

Very few people know the faces of these shadows, or their names. They are America's untouchables and unreachable – America's street children.

Who exactly are these kids? How do they end up on our streets? Where do they come from? How do they manage to survive? Do they survive?

This is their incredible story, told from the front lines on America's darkest streets. Uncut, Unedited, Close to unbelievable.

And every single word is true.
